Re: Patent Application for ULTRASOUND IMAGE EVALUATION  
APPARATUS AND METHOD

Serial No.: 08/451,035  
Filed: May 25, 1995

As requested by the examiner, the documents related to the references in the following 9 sheets of form PTO 1449 (already submitted on Feb. 23, 1996).

**One correction to the references provided:**

**In sheet 6 of 9, reference #8 is not correct. This paragraph is the description of monograph corresponding to reference 7. The total number of references are 11. The references from 9 to 12 are to be renumbered from 8 to 11 in order.**

I would appreciate, if you can return the book and printed reports, after your use.

If you have any questions, please let me know.

Yours sincerely,

N. Ramanathan, Ph.D
